Central Bank of Nigeria

Press Release

CBN Alerts Public To Fraudulent Messages, Cyber Security Hack Attempts

The Central Bank of Nigeria (CBN) wishes to alert members of the public to the circulation of fraudulent messages, emails, and online communications purporting to originate from or be associated with the Bank, which are intended to misinform members of the public.

These fraudulent messages, which prompt recipients to click links, peddle false information about the Bank's leadership, licensing, and policy issues, and are intended to hack personal accounts.

The official website of the Central Bank of Nigeria remains www.cbn.gov.ng. Members of the public are strongly advised to:

- Refrain from clicking links or sharing personal information on suspicious websites.
- Verify the authenticity of all CBN communications through the official website and recognised media outlets.
- Report any suspected fraudulent site, email, or message to law enforcement authorities.

The CBN remains fully committed to safeguarding the Nigerian financial system and continues to strengthen its cybersecurity frameworks in collaboration with relevant agencies to protect the public against digital fraud.

Hakama Sidi-Ali (Mrs.)
Ag. Director, Corporate Communications
